# SOFTWARE PACKAGE/FRAMEWORKS MANAGEMENT DIAGRAM

mongodb v.3.4.6

local install at:

global install at: /usr/local/Cellar/mongodb/3.4.6

Other Notes:
• To have launchd start mongodb now and restart at login -
use `brew services start mongodb`
• If background service not required,
run `mongod --config /usr/local/etc/mongod.conf`

Homebrew Package Manager
Update all homebrew packages with `brew update`

GitHub Install Script for nvm
https://github.com/creationix/nvm/blob/master/README.md#install-script for updating

nvm

initial install at /Users/Bryan/.nvm

global and local are irrelevant at this level b/c it's all relative to the directory /Users/Bryan/ path

which nvm won't work b/c it's a sourced shell function; not an executable binary

Node.js v.6.11.1

local install at

global install at /Users/Bryan/.nvm/versions/node/v6.11.1/bin/node

install new versions with
`nvm ls-remote`
`nvm install newVersionNum`

npm v.5.3.0

local install at

global install at /Users/Bryan/.nvm/versions/node/v6.11.1/lib/node_modules/npm

update with
`npm install -g npm`

bootstrap v.3.3.7

local install at:

global install at /Users/Bryan/.nvm/versions/node/v6.11.1/lib/node_modules/bootstrap

update with `npm update -g bootstrap`

grunt-cli v.1.2.0

local install at:

global install at /Users/Bryan/.nvm/versions/node/v6.11.1/lib/node_modules/grunt-cli

update with `npm update -g grunt-cli`

less v.2.7.2

local install at:

global install at /Users/Bryan/.nvm/versions/node/v6.11.1/lib/node_modules/less

jquery v.3.2.1

local install at:

global install at /Users/Bryan/.nvm/versions/node/v6.11.1/lib/node_modules/jquery

jsdom v.11.1.0

local install at:

global install at /Users/Bryan/.nvm/versions/node/v6.11.1/lib/node_modules/jsdom
